

RISHAV RAJ THAKUR

Quality Assurance Intern

☎ +91 6372459926 ✉ rishavjnk1234@gmail.com 🌐 [linkedin.com/in/rishav-raj-thakur](https://www.linkedin.com/in/rishav-raj-thakur)

Summary

Detail-oriented Computer Science Engineering student seeking a QA Intern role, with a strong interest in software testing and quality assurance processes. Familiar with manual testing concepts, basic web testing, and identifying bugs to improve application performance. Interested in learning industry tools and contributing to the delivery of high-quality, reliable software.

Skills

Manual Testing Skills

Web & Basic API Testing

Tools & Technologies: Postman, Git, and GitHub

Programming & Technical Basics: Basic Python, SQL

QA Concepts: SDLC, STLC, Agile Methodology

Soft Skills: Attention to Detail, Analytical Thinking, Problem Solving, Communication Skills

Experience

- **QA / Software Testing Practice (Self-Learning):** Gained practical knowledge of software testing through self-learning and hands-on practice, including manual testing, basic API testing, test case design, and bug reporting. Developed a solid understanding of software testing concepts despite not having formal industry experience.
- **Software Development Intern | Nepal Telecom (2026):** Developed the NT-FMRS (Field Maintenance Record System) to digitize field maintenance operations. Built responsive web interfaces and integrated backend features. Collaborated with a team to improve workflow efficiency and streamline data management.

Projects

Pharmacy Management System | *HTML, CSS, JavaScript, Firebase*

2025

- Developed a web-based system for managing medicines and billing with role-based access for admin and users.
- Implemented Firebase Authentication and Realtime Database for secure login and data storage.
- Built features for CRUD operations, stock tracking, and expiry/low-stock alerts.
- Performed functional testing and basic API testing to ensure correct data flow and system reliability.

CodeTogether – Real-Time Collaborative Coding Platform | *React.js, Node.js, Socket.IO, Monaco Editor*

2026

- Developed a cloud-based collaborative coding platform enabling real-time multi-user code editing.
- Implemented real-time synchronization using Socket.IO/WebSockets with low-latency updates.
- Integrated the Piston API to support online code compilation and execution for multiple programming languages.
- Built secure collaboration rooms with authentication, role-based editing permissions, and code export functionality.

Awards & Certifications

- **Business for Good: Fundamentals of Corporate Responsibility – London Business School (2026):** Gained knowledge of Corporate Social Responsibility (CSR), ESG principles, stakeholder management, sustainable business strategies, and responsible leadership.
- **Cyber Job Simulation – Deloitte (2025):** Completed a practical cybersecurity job simulation involving cyber risk assessment, security analysis, and industry-based security tasks.
- **Data-Driven Cybersecurity using Python – KIIT Deemed to be University (2025):** Successfully completed a 3-week Summer School on Python-driven cybersecurity, gaining hands-on experience in Python programming, cybersecurity fundamentals, threat analysis, data-driven security techniques, and security automation.

Education

B.Tech. in Computer Science and Engineering

Expected Graduation: May, 2027

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar, Odisha, India
